

Engage The Enemy - Debt Elimination Worksheet

Op Orders:

1. With Perimeter secured, return to Balance Sheet and write in the margin next to each debt it's current balance.
2. On this worksheet re-organize those debts to their fields of battle as follows:
 - a. Smallest debt in 1st position, next smallest in 2nd, etc.
 - b. If you have a *0% loan if paid off by X-date* move it up in sequence to make sure it is paid off at least 3 months ahead of the deadline (provides a margin in case the perimeter gets hit).
 - c. Put student loans in last position (regardless of size).
 - d. Leave the mortgage, if any, off the list.
3. Deploy TWPs to the fight, one battle field at a time, starting with the smallest.
4. Enjoy the sweet taste of Victory and get ready for what the spoils of war will do for you next!

Estimated Timeline of Operation Debt Elimination:

Accounts – realigned for Plan of Attack	Minimum payment (MP)	Balance at start of Op	MP + TWPs	Balance at point of Attack	# Months to Elimination
Time for total annihilation of enemy positions:					

Note: Refer to chapter 3 of *Richer Lives Ready Warriors* for a sample of how to lay out this plan.
